

PRODUCTION

It is one thing to have a screen, it is what you put on that makes the difference.

Spotvision is proud to offer an **in-house production studio** specifically oriented towards giant LED screens.

We offer pre-production services ranging from **nonlinear video editing, graphic design, logo animation**, and a wide range of visuals for special events, concerts, and parties.

We also offer **on-site technical installation and support** for all your event's needs. Whether you would like to incorporate **live camera feeds, Internet broadcasting, insertion of advertising/sponsorship spots**, Spotvision's technical visual division is there to ensure that you maximize the possibilities of this new technology.

Let our experienced team of creators and technicians handle all of your production needs.
